Evaluate

Supplier contract review with Claude in 5 steps

Save this before your next renewal round

1. Extract the essentials
2. Pull the dates
3. Spot the unusual
4. Write a one-page summary
5. Prepare your questions

Swipe for the 5 steps

by **Christophe Atten**

1

Step 1 of 5

Extract the essentials

Upload one contract and ask for a table: parties, term, renewal, notice period, price, indexation, payment terms, termination rights.

Prompt to copy Upload one contract first.

```
I have uploaded a supplier contract.

Extract the key terms into a table with the
clause number for each:
parties | start date | term | renewal
mechanism | notice period | price |
indexation | payment terms | termination
rights | liability cap.
If a term is not in the contract, write "not
stated".
```

2

Step 2 of 5

Pull the dates

Ask for every date and deadline in the contract, with the clause number. These go straight into your calendar.

Prompt to copy

Straight into your calendar.

```
List every date, deadline and notice period
in this contract, with the clause number and
what happens if we miss it.

Sort them by date.
```

3

Step 3 of 5

Spot the unusual

Ask which clauses differ from a standard supplier agreement, and why that might matter. This is where surprises hide.

Prompt to copy — Where surprises hide.

```
Compared with a typical supplier agreement
for [SERVICE TYPE], which clauses look
unusual, one-sided or risky for us?

For each, explain why it might matter in one
or two sentences, with the clause number.
```

4

Step 4 of 5

Write a one-page summary

For the budget owner: what we pay, what we get, when we can leave, what it costs to leave.

Prompt to copy For the budget owner.

```
Write a one-page summary for the budget
owner:
what we pay, what we get, when we can leave,
what it costs to leave, and the next
deadline.
Plain language, no legal jargon, clause
numbers in brackets.
```

5

Step 5 of 5

Prepare your questions

Ask for the five questions to raise with the supplier before renewal.

Prompt to copy Before renewal talks.

```
Draft the five most useful questions to
raise with the supplier before renewal,
based on this contract and our goal: [GOAL,
e.g. lower price / shorter term / better
exit terms].
```

Before you start

One rule

Legal still reviews anything you act on. And only upload contracts your policy allows in the tool you use, ideally an approved enterprise setup.
