TASKS 1 TO 4 OF 8

8 tasks where Claude, ChatGPT or Copilot can genuinely help

01 Close checklist ..... **OK**

Merge last year's checklist with last year's issues into one plan.

02 Accrual review ..... **OK**

Compare accruals with last year and flag anything that changed significantly or disappeared.

03 Audit request triage ..... **OK**

Group the auditors' requests by theme and owner, and spot the duplicates.

04 Disclosure drafting ..... **OK**

Draft first versions of narrative notes from last year's text and this year's changes.

TASKS 5 TO 8 OF 8

And the rest

05 Policy updates ..... OK

Summarise what changed in accounting standards or internal policies this year, from documents you provide.

06 Journal descriptions ..... OK

Rewrite unclear descriptions so auditors understand them without asking.

07 Management letter responses ..... OK

Draft responses to audit findings: finding, root cause, action, owner, date.

08 Lessons learned ..... OK

After close, group the issues into themes and suggest one fix per theme for next year.

BEFORE YOU START

Two rules

Every number comes from your systems and is checked at source. And unpublished results stay out of any tool that isn't approved for them.
