Running the system

1. Use it according to the provider's instructions ✓
2. Assign human oversight to people with competence, training and authority ✓
3. Make sure input data you control is relevant and sufficiently representative ✓
4. Monitor it and inform the provider of risks or serious incidents ✓
5. Keep the system's logs for at least six months ✓

Part 2 of 3

People affected

1 **Inform employees and their representatives before workplace use, where relevant** ✓

2 **Inform people that a high-risk system is used in decisions about them** ✓

3 **Be ready to explain decisions on request** ✓

Right to explanation.

Part 3 of 3

Before first use

1 **Carry out a fundamental rights impact assessment** ✓

Required for creditworthiness use cases.

2 **Plan for the application date: 2 December 2027** ✓

Set by the AI Omnibus for high-risk uses such as credit scoring.

This is a practical summary, not legal advice. Your compliance and legal teams confirm the obligations and dates that apply to you.

Do this week

Your first step

> Check whether any tool in your organisation scores individuals for credit. Then check who would own these eight duties.
