Using Claude, ChatGPT or Copilot at work? 8 checks under EU rules

A checklist for finance teams

Swipe for the full checklist

by **Christophe Atten**

Part 1 of 3

People

1 **Staff using the tools are trained, and it's recorded**

AI literacy.

2 **There's a clear list of approved tools**

3 **People know what data they can and can't paste in**

Part 2 of 3

Contracts and data

1 A data processing agreement is in place where personal data is involved

2 You know whether inputs are used for model training, and the setting is correct

3 The tool is in the DORA register of information, with an exit plan

Part 3 of 3

Use

1 **Disclosure is handled where clients interact with the tool or read its output**

2 **Nobody uses it for a high-risk purpose, such as scoring individuals, without the right controls**

Watch for use case drift.

Practical guidance, not legal advice. Confirm with your compliance team.
