Control

Year-end AI governance checklist for finance teams

10 checks before 2027

Swipe for the full checklist

by **Christophe Atten**

Part 1 of 4

Inventory and ownership

01 The AI use case register is complete and current

02 Every use case has a named owner

03 Risk classifications have been reviewed

Part 2 of 4

Policy and people

01 The AI policy was reviewed this year

02 AI literacy training records are up to date

Part 3 of 4

Vendors and data

01 AI vendor contracts are in the DORA register of information

02 Data protection checks and DPIAs are done where needed

03 Model changes by vendors were reviewed and signed off

Part 4 of 4

Looking ahead

01 **Incidents and near misses were logged, with lessons**

02 **The 2027 regulatory calendar is on the plan**

Governance is evidence that the policy was followed, not the policy itself.

Do this week

Your first step

Pick the three items you're least sure about. Ask the owners. Write down the answers. That's your Q1 governance plan.
