Habits 1 to 5 of 10

The 10 AI habits I'd want every finance team to have in 2027

1. Draft with AI, decide as people.
2. Check every number against the source.
3. Know your data rules without looking them up.
4. Use one approved tool well, rather than five badly.
5. Keep a shared list of prompts that work for your team.

Habits 6 to 10 of 10

And the rest

6. Ask AI to review your work, not only to write it.
7. Measure one AI use case properly before starting the next.
8. Write down what went wrong, and share it.
9. Spend 30 minutes a month learning something new about your tools.
10. Say no to AI projects without an owner.
